BETHEL, MAINE, THURSDAY, JULY 19, 1979

## From the Bethel Town Office

The Board of Selectmen met Monday, July 16, at the Bethel Savings Bank Meeting Room.

A public hearing was held to get upon victualer license applications from Davene Mitchell d/b/a Calico Corner Coffee Shoppe and Harold and Nancy Young d/b/a The Bulldog Diner. The policy in issuing victualer licenses was discussed and it was agreed that action would be taken at the next meeting.

Charles Farrar representing the Lions Club met with the Selectmen to go over Mollykett Day activities and services which will be provided by the Town. The Selectmen voted to approve the parade permit and continue to assist by providing police services, placement of rubbish containers around and fencing of the fountain.

A letter from the Bethel Water District was received indicating that the District would assume responsibility for snow removal around fire hydrants beginning with the 1979-80 winter season. The Selectmen directed the manager to write a letter to the Water District acknowledging receipt of the letter.

The Board discussed the Water District using the town radio frequency but postponed action until a specific proposal is submitted by the District Trustees.

The Board, acting as Sewer Commissioners discussed several sewer charge problems. They voted to abate and refund a portion of the charge on the Bodwell house on Mechanic Street as the old flat rate charge had been incorrectly set. A water meter has recently been installed at the house. Other problems centered around those customers who were instructed to keep their water running fast winter to prevent water line freezing, and who used more than the minimum water usage. The Commissioners voted that because of the extenuating circumstances sewer charges to Anne Benson, Bethel Tire and Service, Maurice Bouchard, Thelma Remington, Albert Sumner, John Trivard, and Arthur Froberg be based on the Water District abated volumes.

## BLOOD DONORS NEEDED

IN BETHEL — BLOODMOBILE  
AT LEGION HALL JULY 31

To help make sure that area patients will have the blood they need this summer, the American Legion Auxiliary is sponsoring a Red Cross bloodmobile on Tuesday, July 31, from 1 p. m. to 7 p. m. It is open to the public, and Bethel residents are urged by Jeri Brooks to participate in this life-giving community effort.

Donating blood is safe and simple, and your one donation can help several different patients. That's because blood may be separated into four or more parts, each of which can be used by a different person.

If you are in good health, have never had hepatitis, are between the ages of 17 (with signed parental consent form) and 65, and weigh at least 110 pounds, you can probably donate blood. To make an appointment, contact Jeri Brooks, evenings at 824-2532.

Just to supply the blood needs of the state of Maine requires over 200 pints each day. Mundy-Allen Auxiliary is hoping to recruit enough donors for their July 31 clinic to meet this one day requirement. Please call for your appointment.

**WATER DISTRICT INSTALLS FIRST OF EMERGENCY POST INDICATOR VALVES**

During the past week, the Bethel Water District installed one of two indicator valves in the main water line from the Chapman Brook reservoir to town which passes under the Androscoggin River at the Twin Oaks Camping Area. The valve is to be part of an emergency control system. Its key feature is that the main can be shut off from the surface even during deep snow conditions without having to dig for the valve. Thus, if the main line under the river should break, and after the second such valve is installed on the opposite side of the river, the vulnerable point in the main line could be controlled so that water in the Bethel mains could be saved and prevented from draining into the river while an alternate line was being put in place.

Also, during this week the District has been involved in replacing a very old clogged line to the Kennett (former Luxton) house on Mason Street at the corner of Chapman and Mason Streets. The job ran into complications due to the age of the lines and lack of any good maps showing where the line was in relation to the sewer. Digging in the blind to locate the old water main resulted in the sewer line being broken in two places. This operation serves to illustrate why, due to the age of the system and lack of adequate records, routine water service jobs often become major repairs costing more than normal house to main service repairs.

**A Prayer For Summer** — Heavenly Father, the source of all refreshments, be with us and with all who are enjoying rest and holiday at this time. May the enjoyment draw us closer together to thee and deepen our sympathy with those who are denied these gifts. Help us to see thee in the beauty and still of nature. As we worship, may we find strength for our bodies, peace of mind, and renewal of spirit for the work of life. Through Jesus Christ our Lord.

**HEALTH VIEWS**  
Whiplash Injuries

After that first heart-stopping moment when a grinding metal against metal signals an automobile accident, your first thought is, "Am I hurt?" and then, "Is anyone in the other car hurt?" When you find out you are apparently uninjured, except for minor bruises, you think about the damage to your car. This is a common mistake that may be storing up for you weeks, months, or even years of pain, because you may have a whiplash injury, and the symptoms may not show up for hours, weeks or even years.

You should be aware of some of the symptoms that may signal a whiplash injury. They are, headache, head and neck pain, blackouts, fatigue, extreme nervousness, light sensitivity, loss of balance, hearing loss, neuritis, shoulder, arm and hand pain or numbness, ringing in the ears, nausea, stomach pain, shortness of breath, tremors, blurred vision, insomnia, rapid heart beat. These are all produced by the irritation of nerves, blood vessels, and muscles of the neck due to the sudden extreme force exerted upon these structures by the impact of the collision.

Chiropractic is the sensible treatment for injuries of this type because it treats the cause of the problem, not only the symptoms. For further information, contact Dr. Stephen Garbarini, Paradise Road, Bethel, Maine, 824-3331.

## Casco Bank: new rules on savings not enough

By FRANK SLEEPER  
Staff Writer

Casco Bank & Trust Co., the state's largest commercial bank in terms of deposits, will take advantage of the new federal savings regulations going into effect July 1 but maintains they "do not go far enough."

While offering the new savings rates and services, Casco also is using newspaper ads and statement inserts to urge Maine people to write their congressmen in order to lift the interest rate ceilings on regular savings above the 5 1/4 percent allowed by law.

"Being Maine's largest commercial bank means we have the most deposits," John M. Daigle, Casco president, pointed out.

"We feel we owe something to our customers who put those dollars into our care... and that's why we're fighting so hard to get those interest rate ceilings lifted. Five-and-a-quarter percent just isn't enough in these inflationary times."

The new regulations, raising interest on regular savings by only 0.25 percent, "really don't do much for the small saver," according to Casco ads.

Even under the revised laws, people with less than \$10,000 are limited to interest of 5 1/4 percent or, at most, 5 1/2 percent, unless they want to tie up their money for one or two years or longer.

Casco advocates elimination of rate ceilings on an orderly but definite schedule. This is much like the proposal recently made in Congress by Sens. William Proxmire, D-Wis., and Alan D. Cranston, D-Calif., to gradually increase the top limit on interest rates for small savers.

"Instead of a law that controls the amount of interest we can pay you, there ought to be a law that allows banks to compete for your savings," the ads say.

As of July 1, Casco will begin to pay 5 1/4 percent on regular and passbook savings accounts, reduce interest penalties for premature withdrawal from certificates of deposit, and lower its minimum deposit requirements for all certificates of deposit to \$500.

In addition, Casco will offer a four-year "Treasury Securities" certificate of deposit paying interest 1 1/4 percent below the average four-year securities rate.

Other banks in the area will be doing the same.

In July 1978 Casco became the first and thus far the only bank to find a way to permit savers with less than \$10,000 in available funds to buy a six-month "Money Market" certificate of deposit.

That controversial "Loophole" program, which finally won grudging approval from regulators, allows customers to borrow the needed funds, buy the "Money Market" certificates and end up with a net return on funds provided that is considerably higher than regular savings rates on short-term deposits.

**RECREATION BOARD SEEKS PLAYGROUND ASSISTANT AND PLANNING COM. MEMBERS**

On Tuesday, July 10, the Bethel Recreation Board met to discuss its summer programs and to continue its work on its five year plan. Gail Sysko, director of the summer playground, reported that 75 youngsters enrolled in her program—a significant increase from last year's registration. Gail praised the work of her volunteer play leaders, junior play leaders, and community people who gave demonstrations at the playground program. After some discussion, it was decided that the balance of the summer budget funds should be used to secure a half-time assistant for the second half of the playground season. Gail Sysko felt the assistant should have ability in the arts and crafts area.

In working on the five year plan, the recreation board felt that more community input was needed in order to clearly define the needs of Bethel. The recreation board decided to survey parents of this year's summer recreational participants to determine the quality of current offerings and the community interest in other areas. The recreation board is also seeking interested community members to serve on planning in the development of public tennis courts, public swimming facilities, and a Swedish exercise trail. Anyone interested in serving on these committees should contact Recreation Chairperson, Carolyn Holden, 824-2155.

**MAINE BRANCH OF YCC CENTERED IN BETHEL**

Bethel is the center for the Maine Branch of the White Mountain National Forest Youth Conservation Corps. The Sunday River Inn acts as the temporary headquarters for 40 of Maine's finest youth while the permanent camp is being constructed near Bog Brook. The enrollees hail from all over the state; from Caribou to Sanford; and from Stow to Columbia Falls.

The YCC has two major objectives: 1) to develop further and maintain our Nation's natural resources by the youth, upon whom will fall the ultimate responsibility for management and protection of these resources; 2) Provide youth with gainful employment in an outdoor atmosphere during the summer months that will create opportunities for understanding and appreciating the Nation's natural environment.

A 40-hour workweek consists of 30 hours of actual labor interlarded with 10 hours of environmental education. The work projects entail erosion control, trail upkeep, camp site maintenance, cemetery rehabilitation, wildlife projects, and a multitude of assorted needs common in the general management of the forest.

Thanks to the YCC the White Mountain National Forest will be a better place to visit.

The program is sponsored by the United States Department of Agriculture through the Forest Service.

**WALKING WITH JESUS CHRIST**  
Did you know that this column is now two years old? Yes, and it is with grateful thanks from many people—even from far away places, that express their gratitude to the Brown's, owners and printers of the Bethel Citizen.

The express purpose of this column is to create an interest in Bible reading and the examination of the many promises, some seven thousand, that God has for us.

The Bible is the inspired "Word" of God. He uses it to speak to us now—as He has over the centuries gone by—in a timeless fashion, ever revealing the truths of our relationship with a Heavenly Father who wants to love us.

The Old Testament written mostly in Hebrew; the New Testament written in Greek has endured the ravages of man, fires and burnings, torn apart, cursed—yet today it is still the best seller. Over the years and especially now, new discoveries authenticate the Biblical writings. In 1946 the Dead Sea Scrolls did these scrolls the hearts of many. These scrolls were sealed in caves some time between 50 B. C. and 70 A. D., they included two scrolls of Isaiah, one of which is complete—it created a sensation since it was the first major Biblical manuscript of great antiquity ever to be recovered—and the findings continue.

While these discoveries delight and encourage the believers in Jesus Christ—even as the discovery of Noah's Ark certainly would—the Bible as the revealed Word of God is an intimate and very real source of joy as we find the meaning of life itself in it.

The truths of the Bible are made known to a person when he wants to know—and revelations come forth as we grow in Christ. To simply open the Bible and read it sporadically very often is meaningless, tiresome and boring, resulting in its being put back onto a shelf where it gathers dust.

The Bible is a Holy Book—God wrote it and gave it to us—it's message is so powerful that people study it word by word—cherishing the pure honey and sweetness that it revealed to a child of God.

Why not even now get together a Bible study—praying for God's touch in your life? Over these past two years some people have saved these columns—re-reading the familiar terms—"We have all come short of the glory of God"—"We must be born again"—John 3:16—Revelation 3:20 etc.

We pray people have found answers to the many questions that life presents—and that lives are being enriched as the Lord God: Father, Son and Holy Spirit guides us onto further riches in His Glory.

**Greenwood City**

— Mrs. Celista Morgan, Corres. —

On an early morning the garden was refreshed with night and the bees were working on the flowers. The fragrant spikes swayed under their weight, making them bend over like birches swung by boys. The foxgloves shook and nodded to their climbing and fumbling and alighting. On some they thrust their whole body into the flowers and drove off newcomers with a buzz. I paused for a time watching them.

A flock of grackles came walking across the lawn. They are formidable walkers, exchanging gallantly, the position of their long mechanic legs, left and right. Then they flew to the water's edge perching in a dead ash tree, looking like a photograph taken in some tropical region. You've seen such photographs — birds perched on naked branches, roosting for the night.

In the afternoon, Ruth, her sister, Evelyn, and my sister-in-law, Fay, walked the "loop" as we call it. It's a road made for log trucks and leads back to Town Meeting Elm and up over Peabody Mountain to the years ago Peabody place and back down to the entrance from where we started. It's a good three mile hike.

All the way there were things offered for your interest. Whatever your eyes alighted on was yours. There were dotted rhythms of colors, young flowers whispering in melody and mingling with shade.

This picture was alive, the earth expanding right and left beneath the sun's dazzling beams but breezes to keep us cool.

We crossed the rivers where the waters dripped against the rocks then were muffled and lost as we continued on.

Finally we came to the hill where the road at the top of the rise seemed to come to an end and take off into the sky. Here was the camp settlement, as we reached the top. We stopped to view them nestled here among nature; the old elm completely dead now had suffered the atrocities of sun, wind, snow and hail. It had broken into pieces that had flown about like clubs.

Then as we turned to the camp on the right, we were shocked at what we saw. The once good camp is now a shamble, door broken and everything scattered or destroyed. We left this heart ache behind and moved on up over last hill to Patch Mountain and the house at the top.

Here was a growth of birch where sunlight left a cascade of light and we sat down to rest and to look to the mountains. Mountains are forever old yet always new to those who find in them refreshment for the soul.

We completed our journey, down hill now most of the way to where we had left our car. The sun lingered on the edge of the world, as we took a last look over the landscape of the mountains and a climbing road.

Doris Hayes and I had dinner with Avis Stellhorn on Thursday. Others present were Doris Stattery, Dorothy Ross and her cousin, Louie Coffin, Lyndell Farr, Lettie Brooks and the hostess.

Fay Holt, Ann Holt and I attended the wedding of Richard Libby and Tonda Mills in Shapleigh on Saturday afternoon.

Mr. and Mrs. Milton Inman left on Saturday to go by plane from Boston to Alaska for a vacation. Mr. and Mrs. Ernest Morris have been at their camp for a few days.

Mona Whitman who has been visiting relatives here, left by plane in Portland for her home in Texas on Sunday morning.

Mr. and Mrs. Mansfield Packard called on Mrs. Esther Davis Sunday night on their way home to Waterville.

Mrs. Lillian Harmon who has been visiting her sister, Olive Davis, a few days has returned home for overnight, as Sunday Mr. and Mrs. Arthur Andrews took her to Mrs. Harmon's son's, Ernest Harmon, in Sebec for the summer.

Our annual July 4th party was held on Saturday, July 7, at Kozy Nook on North Pond. This was a beautiful day and a beautiful place to be. Those attending were: Mr. and Mrs. Arthur Andrews, Mark and Gail, Mrs. Sharon Hooven and two daughters, Daphne and Julie, and the hostess, Olive Davis.

Andy Hayes called to look at my boat which I have for sale. I called on Les and Edie Bryant a couple of times this week. Les is gaining well.

The weather was beautiful for Ledgeview Strawberry Festival. I had no special news given me but saw Mina Morgan's picture in the paper so presume the relatives of the Hendrickson family were very much involved as were Mr. and Mrs. Larrie Wilday.

I was shocked to read of Dorothea Gibbs' passing in the paper as I didn't know she was ill. Our sympathy is extended to Charles and his family in their great loss.

Mr. and Mrs. Arthur Andrews visited me Friday afternoon awhile from Bridgton.

The class of '21 met at Bean's Restaurant Thursday, July 12, for their annual reunion. Those present were: Elizabeth Young, Gladys Knight, Helen Chute, Julia Morse, Lidi Troit, Margaret Dennison and a teacher of our class, Katharine Rolfe. Olive Davis had planned to go but having too much on her mind, she forgot about it. She was in Norway that morning, too, but was home 10 minutes late so missed her ride with Elizabeth Young who called for her. Sorry girls. I guess I'm getting forgetful. Can it be age? See you next year but better still, come and see me before you scatter over the United States again.

Olive Davis was in Buckfield Friday night where she attended the visiting hours for Dorothea Gibbs at the Andrews funeral home.

## Northwaterford

— Clarice Gibson, Corres. —

We did have a hot dry week. Saturday was a good day for just laziness and we did get some much needed rain.

The birds seem to be coming in more all the time. Friday when Pat Anderson stopped in for a minute, she said that there were two baby birds out front and a mother bird calling. The mother kept calling until she had her two babies under her wing. That same night when Frank and I went into the garden, I heard the same calling. Sure enough, there was the mother bird scolding us and then talking to her babies. We never did see the little ones that time, but every once in a while she would swoop and circle around. An almost sure it was a killdeer. We have also had a partridge with her babies in our garden and they can give you quite a start when the mother flies out trying to make you chase after her if she thinks you are too near her babies.

Today we are having more rain and hope this will get the gardens to growing again.

Doug Smith of Cape Cod was home to his parents, Mr. and Mrs. Home Smith Jr., over the week end.
